maia

maia

La matericità del legno si accosta ad una palette tutta naturale, seguendo un'ispirazione nordica che esalta la purezza delle forme. Linee essenziali scaldate dal rovere nodato o dal noce americano massello lavorati a mano: ecco Maia, una collezione dal gusto attuale, disponibile nelle texture: sasso, rete e graffiti, che enfatizzano i profili eleganti e asciutti dando profondità e corpo agli elementi. Il dettaglio del top sollevato rispetto alla struttura del mobile è lo stilema che caratterizza questa collezione.

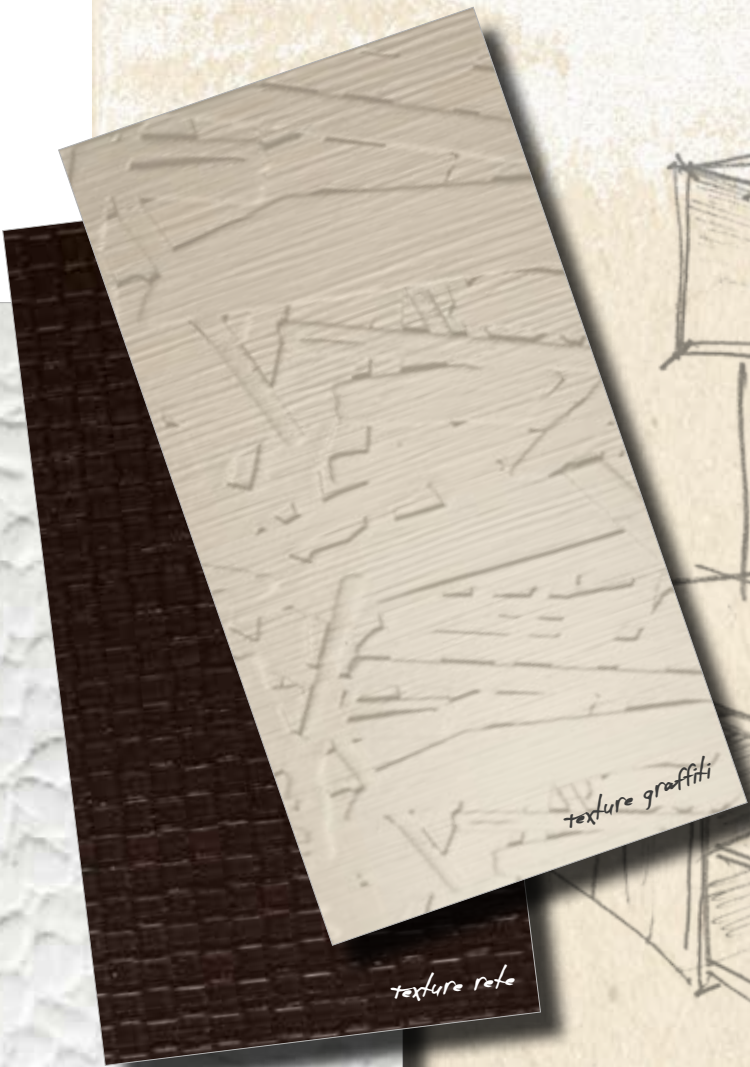

The material of wood combined with a totally natural palette following a nordic inspiration and exalting the purity of shaped. An essential profile softened by oak or by american solid wall nut completely handed kneaded. A contemporary taste, available in three different textures: sasso, rete and graffiti which values its elegant and rigorous shapes. The detail of the lifted top is the distinction which characterizes this collection.
