TIGO

EVEN SMALL BATHROOMS
HAVE GREAT OPTIONS

In small bathrooms every inch/centimetre is important for your arrangement to be a success. TIGO comes forward with a number of ingenious solutions that will appeal to you on the spot and therefore the result will be a success. You will always buy the TIGO washbasins cabinets as one unit with a washbasin integrated into the cabinet. Owing to the washbasin width of 37 cm you will save not only space but also money. No matter what washbasin you will choose, the asymmetrically fitted tap will provide you with enough storage space.

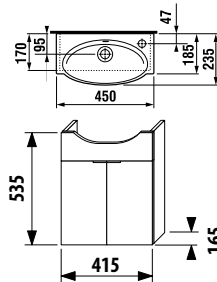

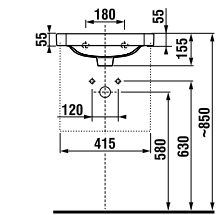

If you are looking in vain for a place where you would like to keep your bathroom accessories, TIGO comes forward with a solution. Owing to the internal arrangement of the cabinets, you will find a place for everything and these things will no longer litter your bathroom. Every cabined is provided with excellent holders that do not protrude and therefore are no obstacles.

An ergonomically shaped bathtub with a bath screen and a bidet in a bathroom in a prefabricated block of flats - no problem, just choose TIGO. It all depends on only whether you have what it takes to put your plans into practice.

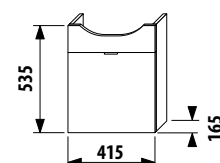

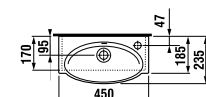

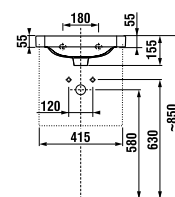

The shortened TIGO wallhung WC saves centimetres without sacrificing comfort. Due to its length of mere 49 centimetres it can be fitted even in the smallest of bathrooms in a prefabricated block of flats and you will still have enough room for tall shallow-depth bathroom cabinets. If you want to get more storage space, do not hesitate. You will add a touch of elegance to your bathroom.
